

## How to Change "Google Chrome" Display Language to English/ other language

### How to Change the Display Language in Settings (Multilingual Support)

**Step 1:** Open the Settings Menu on right  
select "Google services settings"(Google サービスの設定)

**Step 2:** Select Language Settings  
Click "Languages" (言語) from the left sidebar menu.

**Step 3:** Add English or other (If not listed)  
Click "Add languages" (言語を追加) and select "English "  
or other language to add it.

**Step 4:** Set as Chrome Display Language  
Click the "⋮" next to "English" (英語) or other language  
Check the box for "Display Google Chrome in this language"  
(Google Chrome をこの言語で表示).

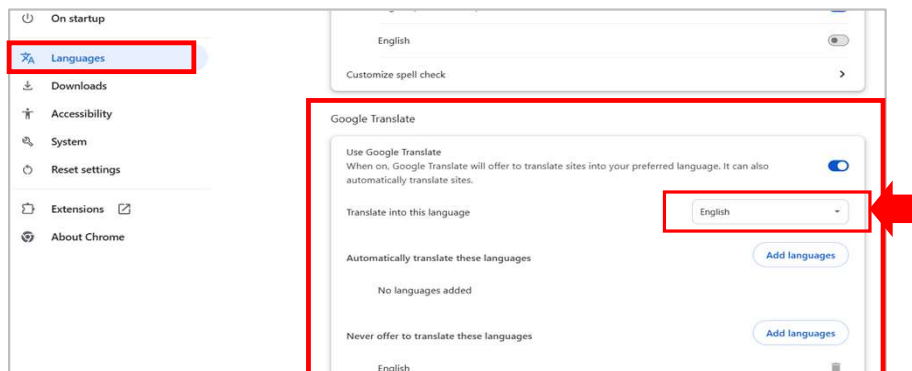

**Step 5:** Relaunch the Browser  
A "Relaunch" (再起動) button will appear.  
Click it to apply the changes.

## How to set up using the translation function

"If you want webpages to be translated into English/other language,

① Verify the 'Translation' (Use Google Translate) option in the same "Language" settings screen.

② Select English /other language
