

# Notification of revision of medical fee

From June 2024, we will shift the "Specific disease medical care management fee" to the "**Lifestyle-related disease management fee (II)**" in order to provide more specialized and comprehensive treatment management tailored to each individual following the guidelines for the revision of medical fee issued by the Ministry of Health, Labor and Welfare.

Along with this, our clinic will also be required to calculate the "Lifestyle-related disease management fee (II)" when giving medication for long-term periods of 28 days or more for patients with diabetes, high blood pressure, or dyslipidemia, depending on their condition, and to provide guidance based on ※ **Treatment plan**. We ask for your understanding and cooperation.

※We will explain the Treatment plan and obtain your consent at the regular health check-ups. (You will need to sign the Treatment plan only for the first time.)

June 2024

Bosch Health Insurance Society, Clinic

Director: Dr. Kenji Sakata
